**Landscape Renovation**

In today's economic uncertainty, many people are staying in their current homes rather than buying a new or bigger house. However, now is no time to let your current home deteriorate. In fact, this year might be the best time to enhance your current home! You can create extreme value by renovating and upgrading your current landscape and curb appeal.

The team at Superior can design and install a low maintenance landscape that is beautiful, relaxing, and thoroughly enjoyable!

**Don't Be Late, Schedule Spring Services NOW!**

- Irrigation Start-ups and Backflow Certifications
- Lawn and Tree Programs
- Spring Landscape Clean-up

**This Month's Horticulture Topic**

by: Chuck Evanhoe, SLM Horticulturist

Winter will be coming to an end soon, and crabgrass time is just around the corner. Crabgrass germination usually starts about the first of April. Our first lawn application begins around the first of March with Barricade® pre-emergent herbicide. Barricade® suppresses germination of crabgrass and over thirty other grassy and broadleaf weeds for the entire season.

This is the first application in our traditional five-step lawn program that keeps your lawn green, healthy, and free of weeds. The crabgrass time clock is ticking by! If you are not already signed up for our turf care programs, now is the time to call for a free lawn analysis and quote! We will design a program specific to the needs of your lawn, using only the highest quality controlled-release fertilizers and herbicides.

All of our services are performed by experienced, certified, and professional employees!

**Make life easier and save money by using one company for all of your outdoor maintenance needs!**
